Western Red Cedar Planters

- Constructed of quality Western Red Cedar, which is harvested from sustainable Canadian forests
- Assembled in the USA with tongue and groove construction and a no-rot recycled plastic bottom to ensure long life of the planters
- There is no need for a liner since the planters tighten and expand naturally when filled with dirt and water
- Western Red Cedar weathers naturally
- Staining or painting isn't required to maintain longevity, however staining or painting is easy if your customers desire a different look
