

## Obtego Fungicide and Plant Symbiont

**Obtego Fungicide and Plant Symbiont** serves as a multi-functional tool for growers by protecting the plant from damaging soil-borne pathogens and enhancing root growth.

Obtego contains two unique fungi-based active ingredients. The two species **combine to form a powerful fungicide** that is effective in a wide range of soil and environmental conditions. Obtego is highly effective against diseases such as *Pythium* spp., *Phytophthora* spp., *Rhizoctonia* spp., and more.

Obtego and plant roots live in a **mutually beneficial symbiosis**. As Obtego colonizes the root system, the Obtego fungi **promote competition and parasitism** of plant damaging pathogens in the soil. In return, Obtego stimulates development of a robust root system. The end result is a healthy, high quality plant.

| Uses                                      | Diseases Controlled                               | Application Method | Rate Range               |
|---|---|--------------------|--------------------------|
| Greenhouse; Nursery;                      | <i>Pythium</i> spp.; <i>Phytophthora</i> spp.;    | Dip                | 0.25 - 2 lbs/gal         |
| Landscape; Vegetables,<br>fruits, & herbs | <i>Rhizoctonia solani</i> ; <i>Fusarium</i> spp.; | Substrate mix      | 0.5 - 1.5 lbs/cubic yard |
|   | <i>Thielaviopsis</i> spp. & more                  | Chemigation        | 2.5 - 5 lbs/acre         |
|   |   | Drench             | 2.5 - 7.5 oz/100 gal     |
