

Steel Edging

Quick installation and remarkable durability makes this landscape edging a favorite with professional landscapers

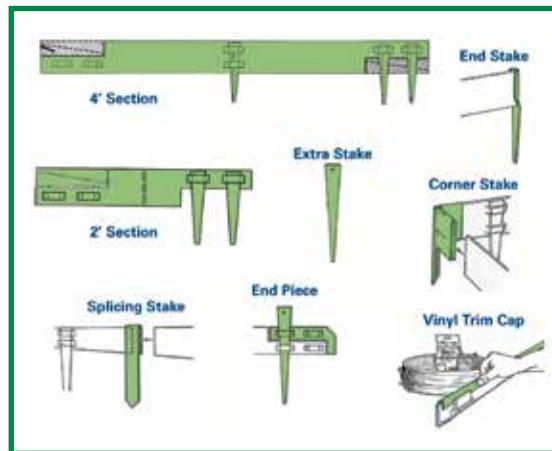

Steel edging is a long term investment in a landscape installation. Weed-eater proof, lawn mower resistant, unaffected by UV light or extreme temperatures; steel edging is the most permanent bed divider available without pouring concrete. All edging is painted green, infrared heat baked for durability. Can also be formed into circles for trees or other circular planting beds. 2-10' lengths will form approximately a 6' diameter circle.

Please call for availability and pricing for black or brown steel edging

- There are two thicknesses available:
12 gauge = .1126"-.0966"
14 gauge = .0817-.0677"
- 4-12", green 10 gauge metal stakes are included with each piece of steel edging
- All edging is 4" high
- Can be cut to size with an abrasive blade or a portable electric hand saw

Steel Edging Accessories

End Stake - Used to secure cut off edging sections at the end. Covers sharp edges and gives a professional look to project. 10 gauge, 13" long, .6 lb green.

Corner Stake - Designed to join two cut off pieces of edging to make a solid 90° corner. Size 9"L x 5.5"W x 6.25"H. 1.1 lb each.

Splicing Stake - Covers the edging ends where cut off pieces are joined together in a straight line. Made of 14 gauge steel painted green. Length 13" long, 1.2 lb each.

Vinyl Trim Cap - Green in color, it is used to cover the top edging of 14, 12 & 11 gauge edging. Great for around pools and other high traffic areas. Available in 25' rolls; weight, 1.5 lbs each.

End Piece - Used to square off an end and provides stake slots for the starting end of the first section of edging. Made of 14 gauge steel painted green. 8.5"L x 4"W x 4"H; supplied with 2 stakes; weight 2 lbs.

Short Sections - Available in 2' long (model 142SS) and 4'long (model 144SS). For use with pre-formed corners and other edging products. Made of 14 gauge steel painted green. 2': 2.5 lbs.; 4': 4.2 lbs.

Extra Stake - Made of 14 gauge steel painted green. Extra stakes for securing edging and accessories. 13" long, .5 lb.

Green Paint - In aerosol can for use in touch up, color is same as edging. 9.75 oz.
