## DT22 Dethatcher

With a modular design, this dethatcher offers incredible versatility and productivity. The rugged commercial construction includes a reel with greased bearing in a welded 10-gauge chassis. Standard flail blades swing freely allowing centrifugal forces to remove matted thatch efficiently. Control lever adjusts easily to 7 preset depths to maintain consistent depth while power raking. The ergonomic handle is foam padded and has 3 different operator heights.

## SD22 Seeder

A well-balanced and easily portable seeder due to the simple folding handle design. The ergonomic handle is foam padded and has 3 different operator heights. The 30 lb capacity polymer hopper features a site window and is mounted at the rear to ensure good visibility and minimal seed damage during over seeding. The seed gate is adjustable to accommodate a broad range of grass seed and tough 12-gauge delta blades are angled and beveled to maximize seed penetration. Control lever adjusts easily to 7 preset depths to maintain consistent depth while power raking.
