

Mechanical Ventilation Systems

Super Windmaster FANS

Personal Attention To Quality

- When ordered with square or slant-wall housing, fans are shipped completely assembled and ready to install and wire. Propellers are precision balanced for a smooth, quiet performance
- All fans are test run and inspected before released for shipment as further assurance of the superior quality of Acme products

DCA Series (Aluminum)

- All-aluminum orifice and propeller
- Heavy-duty steel structural frame triple protected with iron phosphate baked-on epoxy primer and baked-on Acrylic Epoxy Finish
- Stainless steel fasteners are used throughout to bolt structural frame to aluminum orifices
- Fan is mounted in galvanized wall housing ready to install and wire
