

GABLE 7500

Conley's Gable Series 7500 Greenhouse – **maximum strength**, sophisticated design, highly **customizable**.

The Gable Series 7500 has become an industry standard production house, education or retail structure.

Compatible with multiple covering options and ventilation designs, this greenhouse offers an ideal environment for just about any application.

Main Features

- Superior ROLL-FORM trusses and ROLL-FORM purlins ensure unmatched structural integrity
- Flush mounted purlin design
- Lapped and cantilevered gutters increase strength and efficiency
- Patented condensate removal system built right into truss and purlin design
- Heavy-duty column to truss connectors manufactured by Conley's meet stringent industry safety standards
- Aluminum end wall extrusion is incorporated to "Flash" roof and end wall coverings
- Truss and purlin design offers "I" beam technology for superior strength
- Components are shipped pre-punched and cut to length; simplifying the installation
- ROLL-FORM components nest one into the other during shipment, substantially reducing freight costs

Loading

This structure is engineered to meet a standard 12 LB live load 85 mph wind or 30 LB ground snow load 85 mph wind per the International Building Code (IBC). Alternative loadings are available upon request.

Sizing

Widths: 14-6", 18', 21', 24', 30', 35.5", 41.5', 50'
Under Gutter Heights: 8', 10', 12', 14'
