

# Black Diamond Lawn Edging

**The landscape industry's highest quality edging!**

- Made of flexible virgin polyethylene
- Will not rust, rot or lose its shape
- No sharp edges
- No accessory tools required for installation
- Makes free flowing bed designs as well as round or square corners
- 1/2" taller and 20% heavier than other edging
- .075" sidewall thickness
- 1' lip at bottom of edging helps control frost heave

Each 20' section of edging includes a stake kit consisting of four - 9" metal stakes and one - 8" C" connecting plug
