

Motorized Wall Shutters

All-Aluminum Shutter - LRW

The LRW Shutter is an all aluminum damper featuring an extruded aluminum frame with interlocking aluminum blades for maximum weather seal.

Double panel shutters (LRW45 and larger) are constructed with a rigid 'T' section center member to prevent shutter blades from sticking. Has nylon bearings on all movable linkage.

Sturdy, extruded aluminum tiebar connect on the blade centers. Double panel shutters feature dual tie-bars (one for each panel). Can be gravity or motor operated.
